PEACE TREATY IS KILLED BY POLITICS IN U. S. SENATE

We Are Yet at War with Germany and Austria, with no Remedy Except to Negotiate a Separate Treaty and Take Our Chances on Fighting the World Alone in All Matters Hereafter.

Washington.—Falling after three attempts to ratify the peace treaty, the senate late last night laid it aside, ended the special session and went home.

All compromise efforts, and the three resolutions of ratification all went to defeat, the Republicans then put in a resolution to declare the war at an end, which was lost.

Two of three ratification votes were taken on the reservation drafted by the Republican majority, containing reservations which President Wilson had told Democratic senators in a letter earlier in the day would mean nullification of the treaty.

The first vote on this reservation stood 39 to 55 against. On the second one taken after several hours of preliminary wrangling in which the Democrats made efforts to bring over some of the Republican group of mild reservationists, 41 senators voted in the affirmative and 51 in the negative.

A third vote was on a straight out resolution without reservations which got only 38 votes to 63 opposing it. Only one Republican, Senator McCumbe, North Dakota, voted with the Democrats in its support.

Republican Leader Lodge declared today's voting constituted a final decision on the peace treaty unless President Wilson circumvented the senate rules by withdrawing it and then submitting it again to the senate. In all quarters there was difference of opinion but general sentiment seemed to be that there was a slender chance that the treaty would come up at the opening of the next session of congress, beginning next month.

One effect of the senate's failure to ratify the treaty will be the continuation of various war-time laws and regulations at least until the new session opens. Among these is the war-time prohibition act.

The resolution presented to declare a state of peace will come up at the beginning of the new session and is expected to start another stubborn fight. The administration is understood to be opposed to such a method of legally ending the war and in the background is a constitutional question as to whether congress can do so by a resolution not requiring the President's signature.

JUDGE WILL YOUNG KILLED BY TRAIN

A report reached Louisa Thursday morning that Judge A. N. Cleo and Judge W. A. Young were killed by a train near Lexington Wednesday night. Later it was reported that instead of Judge Cleo it was County Judge Chris of Menifee county, who was with Judge Young.

They were in an automobile and are said to have driven directly into the side of a rapidly moving freight train at Brighton, six miles from Lexington. Both men are said to have been killed instantly.

Judge Will Young was one of the brightest lawyers in the state. He was a brother of Judge Allie Young, formerly of Morehead. Will was serving his second term as Circuit Judge in the district composed of Montgomery, Hatt and Rowan.

CHAS. MUSIC GOES TO ELECTRIC CHAIR

Charles Music, the Ashland bandit, must go to the electric chair for killing Policeman Charles W. Hatfield, March 30, after robbing Charles Hill in the Bragg hotel in Ashland.

The policeman was pursuing Music when Music shot and killed him. The Court of Appeals, in an opinion by Judge Thomas, affirmed the death sentence last Friday.

Music is the desperado who terrorized the people of Johnson and Floyd counties for months previous to his trouble in Ashland. He was arrested by William and Ed. Taylor near Louisa on a charge house stealing. After being in jail here a few days Sheriff Wm. Taylor suspected that he might be Music, for whom the Boyd county officers were searching. The investigation that followed proved this suspicion to be correct.

EASTERN STAR OFFICERS INSTALLED TUESDAY

Mr. Geo. P. Ginn, of Ashland, Past Worthy Grand Patron, came to Louisa Tuesday evening an installed the officers of Louisa Chapter No. 282, Order of the Eastern Star. This chapter was organized last August and received their charter at the recent session of the Grand Chapter held at Lebanon.

Ed C. Crow has been elected city clerk of Huntington, W. Va. He formerly lived at Catlettsburg and is a son-in-law of O. D. Garrod.

Sudden Death of Mrs. Alice H. Porter

Mrs. Elizabeth Hatcher, has received a telegram from Philadelphia stating that her daughter, Mrs. Alice Hatcher Porter died there yesterday of apoplexy, after a brief illness. The body will be brought to Louisa for burial and should arrive Friday. The funeral arrangements had not been announced when the NEWS went to press.

She is survived by a daughter, Mrs. Maugen Porter Lanke, who lives in New York City. Mrs. Porter was about fifty years old and had lived in Philadelphia ten years or more.

George Walden Dies in the U. S. Service

George Walden died at Camp Taylor a few days ago and his body was accompanied to Louisa by a comrade and taken to his home on Twelfth Branch for burial. He became suddenly ill in Louisville with some heart trouble and died in a short while.

When men were being sent from Lawrence county by the draft in the spring of 1918 young Walden begged to be sent ahead of his number, offering to take the place of any married man in the list.

DEATH COMES TO JAMES Q. LACKEY

Mr. James Q. Lackey died at one o'clock Monday morning at his residence in Louisa. For the past few years he had been in failing health and for many weeks had been confined to his bed. He suffered from a complication of diseases, one of which was a leaky heart.

At his bedside when death came were his wife, son and daughter, Jas. Q. Lackey, Jr., and Mrs. Harry C. Corns, the latter having come from her home in Florence, Alabama, several months ago to assist in caring for her father in his illness. Mr. Lackey was given the best attention during his long illness.

He was the son of Greenville and Rebecca Quinn Lackey, of this city, both of whom died many years ago. He was born in Louisa 67 years ago and had spent his entire life here. He was prominent in politics for many years, being an active Democrat. He enlisted in the Confederate army at the age of 13. Had been a member of the Legislature of Kentucky, served as Sheriff of Lawrence county, a member of the Board of Election Commissioners and Master Commissioner.

In 1873 he married Miss Lida Rice, daughter of Judge John M. Rice. Five children were born to them, three of whom are living. A daughter died in infancy and Alex died eight years ago. John G., who lives in East Liverpool, Ohio, was unable to attend the funeral. Mr. Lackey had been a member of the Masonic and Odd Fellows orders since 1873. Both of the local lodges of these orders took part in the funeral. He had served as Grand Master of the Grand Lodge of Kentucky Masons.

A few years ago Mr. Lackey joined the M. E. Church South and lived a consistent life from that time until his death. He suffered greatly during the last days of his life, but was happy in the assurance of his future.

The funeral was held in the M. E. Church South and the large building was filled with friends from this and other places who desired to pay their respects to his memory. Rev. J. E. Hill made an appropriate talk. A choir made up of singers from the two Methodist churches rendered impressive music.

The interment followed in Pine Hill cemetery, where he the remains of several of Mr. Lackey's loved ones.

ATTENDED FUNERAL. Among the relatives who came from a distance to attend the funeral of Mr. Jas. Q. Lackey were the following: Mrs. Thos. R. Brown, Mrs. Alex Brown, Mrs. J. H. McConnell, Senator George B. Martin, of Catlettsburg, Mrs. A. J. Crowell and sons, of Huntington, W. Va., Mr. and Mrs. B. F. Thomas, of Cincinnati, Ohio, Mr. and Mrs. J. M. Rice, of Frankfort, Mrs. W. S. Harkins, Mrs. Frank Hopkins and Mrs. H. H. Fitzpatrick, of Prestonsburg.

SALE OF BUSINESS LOTS IN LOUISA

On next Monday there will be offered for sale a number of lots in the heart of the business district of Louisa. This property was known for 40 years as the Roffo property. It is on Main and Main Cross streets, opposite the court house and diagonally across the street from the Louisa National Bank. It consists of one-third of the square and is divided into 10 lots, three facing on Main street and seven on Main Cross.

It has been a long time since the public has had a chance to buy choice lots as these in Louisa and with the boom and development just starting, the demand will be strong and the buyers will find the investments to be good. With the growth absolutely assured to Louisa as a result of the oil development, and the natural advantages of location, values are sure to increase far above the present basis.

Miss Fay Adams left Tuesday for her home at Pickerington, Ohio, after a visit to relatives in Louisa and other points in Lawrence county.

COAL SITUATION NOT IMPROVED IN UNION DISTRICT

Union miners are not working in the strike districts, in spite of the fact that the leaders publicly called off the strike when ordered by the United States Court to do so. They are suspected of having privately passed the word along to stay out. The court should see that no benefits are distributed, because this is the only way in which this vile conspiracy can be maintained.

Nearly all the mines in the Big Sandy and Tug river fields are running. This is due to the fact that a large percentage are natives, whose Americanism can be aroused by showing them the facts. The foreign highway-men must be shipped out of the United States before we can have justice. Anarchist leaders drawing from \$10,000 to \$25,000 a year salary from the wages of miners will do anything to keep their easy jobs going. Some of them would commit murder for that amount of money or less. They care nothing for the interests of the miners or the public.

Americanism asserting itself is the only hope for this country. It is high time the public shows its resentment and its power.

The government has just uncovered plots to kill officials and judges at Christmas times with bombs disguised as Christmas presents. Anarchy is rampant in the United States.

Marriage of Miss Hale and Mr. John Hinkle

On Tuesday afternoon the home of Mr. and Mrs. George Hale was the scene of a pretty wedding when their daughter, Miss Louie, became the bride of Mr. John Hinkle. The ceremony was performed by Rev. J. D. Haggard, pastor of the M. E. Church in the presence of a number of friends. The rooms were decorated with ferns.

The bride is one of Louisa's attractive girls and on this occasion was gown in white satin and carried a bouquet of beautiful flowers. She is popular in her circle of friends. After receiving congratulations the bridal pair and a few friends remained for supper. Later they left for Richardson, the home of Mr. Hinkle. The bride's traveling suit was of brown cloth. From the train as they were leaving she threw her bouquet which was caught by Miss Clifford Wilson and Miss Marie Hale and seems to have fallen into the proper hands. Mr. Hinkle is the son of Mr. H. D. Hinkle of Richardson. He is a telegraph operator and is in the employ of the C. & O. railroad company on the Big Sandy division. He is an energetic and capable young business man. Many friends wish them a long and happy wedded life.

THE BOND ISSUE FOR ROADS DEC. 20

Every Lawrence county citizen who favors good roads should get busy with his neighbors in favor of the bond issue which is to be voted on Dec. 20th.

If every county in the world needed good roads it is Lawrence county, and if ever a good proposition was offered to get a county to solve this most important problem it is now open to Lawrence county.

The State and nation stand ready with an offer to give us hundreds of thousands of dollars to build roads. They ask us to show our good faith by doing less than one-third of the job ourselves.

We must build the right kind of roads and quit wasting our tax money in mud holes that return every time it rains. Let's get money enough at one time to build roads that will stand and the money now wasted can be used to pay interest on our part of the cost of the roads.

All danger of squandering the money through incompetency or otherwise is eliminated by the fact that the work must be done as directed by State and national engineers. This removes the objection that many of the most practical men of our county offered to bonds in former years.

The oil development will pay the greatest part of the cost if we will give them the roads. One of the oil companies operating here is already the second largest tax payer in Lawrence county, and it has only fairly started on the job of developing its immense acreage of proved territory. There are other companies that will be just as large. The local citizens will get the benefits of the large amount of taxes paid by these companies. And the companies will gladly pay it and do even more than that if they can get the roads.

Lawrence is the missing link in the chain of Big Sandy counties. Let's supply that link on Dec. 20th. Four roads are to be built, giving everybody a chance to be near an improved highway. The oil development and the enterprises it will bring will increase the tax receipts to such an extent that we will not feel any burden from the building of roads. Then when we consider what it means to spend nearly a million dollars in the county for road work there is no argument left against it.

Dr. W. T. Ong and family will move from Louisa to Williamson, W. Va., which will be more convenient for the Doctor.

OIL DEVELOPMENT IN THIS COUNTY IS ON THE BOOM

Two more good wells have been completed in the field near Louisa. One is on F. R. Bussey's land, near Mrs. Battle Pigg's. It is making an excellent showing while being cleaned out. There seems to be no doubt about it being the best well in the Busseyville field. Estimates run all the way to 20 barrels or more, but the most conservative say it should settle down to not less than ten barrels. The New Domain owns the lease. This means big development in that vicinity.

The well on the Muncy tract by Shigel brothers is about due to come in. If good this will open another large piece of territory heretofore untested.

On M. L. Johns' farm two miles below Louisa a well has been drilled in that is good for seven barrels. No. 2 on the same tract will be started within a few days. This adjoins the Rebecca Peters land, on the side toward the river.

A well is to be started on E. E. Shannon's 500 acres on Rockcastle, near Clifford. Mr. Shambert has charge of this development.

It is said the South Penn will do a lot of drilling between Fort Gay and the Twelve Pole valley during the coming season.

T. F. Maloney, a large operator from Lee county, is at work on the James Q. Lackey farm two miles below Louisa. Also he has a large block of leases on Lick Creek and will proceed with the development there as soon as possible.

Mr. Crumley, the new field man for the Ohio Fuel, is giving entire satisfaction in handling the work in this field. The new pipe line to Blaine is now handling oil steadily, doing much better than it first. It is said this line will be extended a few miles to Bascom Elliott county, where a well is making 14 barrels per day.

New rigs are coming into Lawrence county every few days and drilling is on the hum.

REV. F. F. SHANNON CONSIDERING CALLS

Rev. F. F. Shannon, of Brooklyn, has under consideration offers from three of the large churches of New York and Chicago to become pastor. He has not yet decided which he will accept.

Dr. Gumsaulus, of Chicago, is retiring to give all his time to the Armour Institute, of which he is the head. Dr. Shannon has preached in that church twice this month at the urgent request of Dr. Gumsaulus and the board and a pastor for the pastorate has been made by him.

In New York city the pulpit soon to be vacated by Newell Dwight Hillis has been offered to Mr. Shannon. Also, another church, on Fifth avenue, has made an offer.

Gumsaulus and Hillis rank as two of the greatest preachers and lecturers in the United States. The fact that their congregations are after Mr. Shannon with offers and appeals shows conclusively where he is placed in the list of leading ministers. His home town of Louisa is justified in believing he is the peer of any preacher in this great country.

BIG CRASH IN THE STOCK MARKET

The worst crash in the stock market that has occurred since Oct. 27, 1907, when the great panic started, took place last Friday. Fortunes were lost by the speculators, but the Federal Reserve System saved everybody else. The panic of 1907 started in Wall Street exactly like the smash of last week, but the difference was that the currency laws were then so unstable that banks became involved and the public was thrown into a panic lasting for months. It was years before full recovery was made. This time nobody but the stock gamblers were hurt or scared and business in other lines went along as usual. It is another proof of the value of the Federal Reserve law, which weathered the storm of the world war and enabled the United States to become the banker for the world. Without that law the war would have ruined us.

HARVE SALTERS' RESIDENCE BURNED

The residence of Harve B. Salter at Yatesville was destroyed by fire Tuesday night. The fire started by a flame of natural gas catching some paper. Only a few things were saved, as the house was destroyed in ten minutes. Mr. Salter's many friends sympathize with him in the loss.

A gas well was drilled in, on the farm recently and gas had been piped to the house. It was put into use only a few hours before the building was destroyed. The flames started when some one attempted to turn off the gas but turned the valve the wrong way and the flames flashed out far enough to catch the wall paper.

Three Real Estate Deals This Week

J. P. Garlin and W. H. Adams have bought from M. G. Herry the hill land on the west side of the road leading from Powhattan street in Louisa to the mouth of Lick creek. The land overlooks the town. It will be divided into several tracts and some dwellings erected on them.

Fred Frazier has bought from Conley and Burgess the surface of the 37 acre tract two miles below Louisa, recently acquired from Tom Rice. Frazier will move his family from Pleasant, W. Va., to the property this week. Mr. Rice has moved to Louisa and occupies the place recently purchased from James Fuller.

W. P. Dalton has bought from Mrs. Pricey Chapman and children their farm near Potter station. Mr. and Mrs. Chapman have purchased a home in Huntington and will move there at once.

STREET PAVING FOR LOUISA.

The City Council of Louisa will arrange, at the next meeting for issuing a portion of the bonds authorized for street paving purposes. The sale of the bonds will be the next step. Then the work to be done first will be offered for bids. It is hoped to get a considerable amount of the work done next year.

LAW AND ORDER MUST BE UPHELD

Hon. Z. T. Vinson, of Huntington, a leading Republican of West Virginia, made a speech to the Credit Men Tuesday night in which he lauded U. S. Attorney General Palmer, Governor Coolidge and Governor Cornwell for their courageous stand for law and order.

Mr. Vinson said, in part: "It is particularly appropriate, at this time, to discuss law and order. Without it we cannot exist, and it has been stamped by Almighty God on all the universe. He established it when he dispelled darkness and chaos with light. Since the time of the Garden of Eden there have been two mighty conflicting forces, and these, the forces of good and evil, will continue to strive as long as the world exists. The great things obtained for humanity, always come after a struggle. Laws are rules for human conduct and out of them must come all order. Sometimes, in the midst of our trials and everyday affairs, we are inclined to be forgetful of the fundamentals of human life and happiness. Man was endowed with certain inalienable rights, the right to life, liberty, property and the pursuit of happiness. These are above all government, and when government trespasses on these, it is without its province. First we had the ten commandments, then the Sermon on the Mount, and later the Constitution of the United States of America. The individual soul is the greatest of all God's creations, and the only way to build up society is by making the individual stronger and better. There are great dangers today, which threaten to overwhelm government, church, Bible, and even to deny the existence of Almighty God. We cannot shut our eyes to a very present menace. We are walking on the top of a volcano which is ready to burst any minute and engulf us. I know we are all hopeful and optimistic, and by the way, I heard a new definition for an optimist today. I was told that an optimist is 'a man who continues to carry a cork-screw on his key ring.' We are too apt to say these things of which I have been talking, will all come out in the washing."

"Take the coal miners and their demand for a six hour day, five day week, and a sixty per cent increase in wages. That demand, if granted, would double the cost of coal production, and would go to the public in higher coal prices. Think of the effect on coal used for manufacturing purposes. It would be impossible for us to compete with the other nations of the world. The United Mine Workers of America, back of the strike, are not an ordinary labor organization, like the railway men or the carpenters. Their constitution, in 1912, provided that the miners should seek an equitable share of the price of the coal produced. Since then the socialists got control, and they now propose to take all of the price of coal produced, except to pay the men who haul it to market. They are fighting the battles of socialism and that explains their preposterous demand. They testified, under oath, at Charleston that they proposed to take every cent, and allow nothing to the owner of the coal or the machinery by which it was produced. They testified under oath they expected, each year, to increase their demands, until they would take over all the money paid for coal without compensation to the owner of the land or the mine."

"The fight is on such socialistic philosophy. We owe a great deal to the strength, power and courage of a public official, namely the attorney general who should be congratulated. These socialistic philosophers, I. W. W.'s, Bolsheviks, Soviets, and anarchists, sole object is to destroy law and order. Reports show 224 newspapers published in this land, in foreign languages, and 34 published in English all advocating the overthrow of government. "If it were possible for Governor Cornwell to run again for Governor, and unfortunately it is not, I don't believe a Republican would be nominated against him, for it would be no use. I have not seen a representative Republican business man in West Virginia but who says if Governor Cornwell would run again he would be for him."

JAMES SPROUSE DIES FROM EFFECT OF A SPIDER BITE

Mrs. Dave Wilson Burned to Death by Explosion of a Lamp. Croup Kills a Child. Smallpox of Severe Type in the Neighborhood.

Buchanan, Nov. 19.—Jas. Sprouse, who was bitten by a spider about three weeks ago, died Sunday morning. Typhoid developed soon after the bite and his system was so poisoned that it did not yield to medical treatment. The spider was a large red spotted one and in an hour after the bite Mr. Sprouse became violently ill, death resulting Sunday. His funeral was in charge of the local lodge of I. O. O. F. and burial took place at Durbin. He was 32 years of age and leaves a wife and four small children.

Fatal Explosion.

A sad accident occurred on Lockwoods creek near Lockwood station Saturday night when Mrs. Dave Wilson was so badly burned that she died five hours later. The accident was caused by the explosion of a kerosene lamp. They had blown out the light and retired when she noticed that it was burning down in the oil. When she attempted to extinguish it the lamp burst, throwing the burning oil over her, completely burning the entire body. Dr. Prichard was called from here, but was detained and did not reach the home until after she died in great agony. She was about 45 years old and leaves a husband and family for whom much sympathy is felt.

Smallpox on Bear Creek.

Smallpox is in our vicinity. Mr. Wm. Fields of Durbin has a severe case and a number of folks have been exposed in that neighborhood and on Ellingtons Bear creek. However they are well under control and it is hoped it will soon be stamped out, most of the country having been vaccinated the past few days.

Corns Come Off Like Banana Peel

"Geta-It" Leaves Toe Smooth As Your Palm. Never Fails.

Ever peel off a banana skin? Well, that's the way "Geta-It" peels off any corn or callus. It's a plente. Nothing else in the world will do it.

"2 Drops of 'Geta-It,' Good-bye Corns" but "Geta-It" because of the new secret principle in the "Geta-It" formula. "Geta-It" goes away forever with "contraptions," "wrappy" plasters, ointments that rub off, blood-letting knives, and scissors that snip into the "quick." "Geta-It" eases pain. It takes but a second or two to use "Geta-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on again. Your corn will come off painlessly in one complete piece. That's common-sense. It never fails. "Geta-It" is the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill. Sold in Louisa and recommended as the world's best corn remedy by Louisa Drug Co.

METHODIST PREACHERS
TO GET \$1,500 AVERAGE

New York.—An average increase of
40 per cent. in the salaries of Metho-
dist ministers throughout the country
to meet the mounting cost of living and
the establishment of "minimum salar-
ies" were announced by the Centen-
nary Conservation Committee of the
Methodist Episcopal church here. The
new scale of pay will be in effect gen-
erally by January 1, it was stated.
Those ministers whose pay has been
increased by their congregations to a
sufficient amount will receive no added
remuneration from the church organi-
zation.

The average salary was \$1,111 in
1918. The new average will be ap-
proximately \$1,500.

10 Choice Business Lots
PUBLIC Auction SALE

Right in the Business Centre
Louisa, Ky.
Monday, Nov. 24, 10 A.M.

An Unusual Opportunity

This property is in the very heart of Louisa's business section. Opposite Court
House square and Carter's Department Store; diagonally across the street from The
Louisa National Bank, the very cream of business sites in this rapidly growing city.
For many years frame business houses have stood on this site—now they have been
razed, and the property is placed on the market in separate parcels.

Louisa, the Oil City of the Big Sandy

is limited in available business sites. The rapidly expanding oil and gas development
of which Louisa is the dominating center, and the remarkable growth in business
and population renders this a most opportune time for investors or those seeking
advantageous retail locations to acquire one or more of these parcels. Attend this
sale and verify for yourself these statements.

Reasonable Terms of Payment

offered at this sale. This is a real chance for a "Ground Floor" purchase in the
coming metropolis of the Big Sandy Valley.

The injunction is the only effective weapon left for the protection of the people against the "money-or-your-life" policy of organized anarchy.

The strike was called off, but the disloyal officers of the union are not acting in good faith. A great many men are yet holding out, because the word has been passed around by their Bolshevik leaders to do so. It is up to Congress to act, and act quickly.

Keener, head of the miners union in West Virginia, collects a salary of \$15,000 a year from the miners for keeping them in trouble and out of work. Such fellows as he are the ones responsible for the greatest trouble now existing in the world.

We believe the United States has the best government in the world. It is not perfect, and there never will be a perfect government on earth, because there will be no perfect human beings. When you hear a man condemning our government you know he is an anarchist, a Bolshevik, or an ignorant, ungrateful jackass who is unworthy of citizenship. Occasionally a dishonest official gets into office here and there, but this fact does not justify condemnation of the entire government, including all the honest officials. This is a testing time for Americanism and the disloyal fellows are being marked.

Four ex-soldiers marching in an armistice parade Nov. 11th in Centralia, Washington, were shot down by members of the I. W. W. concealed in buildings. These anarchists fired directly into the parade. One of the assassins was captured and hanged. Scores of others were arrested and placed in jail. Excitement is running high throughout the northwest and it is hoped the supreme sacrifice made by these four martyred young men will mean the death of the I. W. W.

This is one of the worst crimes ever committed in the United States. It is only another evidence of the dangerous extent to which anarchy has been developed in this country by the foreigners and criminals. The death penalty coming swift and sure is the remedy. Nothing else will stop these beasts.

The tug river road between here and Louisa, a distance of 3 or 3½ miles, is in a very bad condition. Almost impossible to drive a car. December 20 is a good time to vote for bonds—as the roads will be so bad. The progressive citizens of Lawrence are hoping that each voter will get "the vision" and cross the ballot for good roads. Now is our change to prove that we are not asleep.

KENTUCKY RED CROSS.

With the closing of Red Cross State headquarters in the Phoenix hotel, Lexington, Saturday no announcement was made of the Kentucky total in the recent membership drive. The quota was 300,000. Less than one-third of the counties have reported.

Supplies and equipment are being sent to Louisville and headquarters will be maintained there again with Miss Lida Hafford, state executive secretary, in charge.

It is estimated several weeks will elapse before definite knowledge of Kentucky's part in the annual Red Cross roll call will be ascertained.

ADMITS KILLING MOTHER.

Huntington, W. Va.—P. G. Cunningham, ex-soldier, admitted that he fired the shot which killed his mother, Mrs. Mary A. Cunningham, at their south-side home last week. He claims the shooting was accidental. Cunningham said he was attempting to fix his 22-caliber rifle, when it went off, the bullet striking his mother in the head and killing her almost instantly.

ELECTION FOR BOND ISSUE TO BUILD ROADS

At a regular term of the Lawrence County Court begun and held at the Court House in Louisa, Lawrence County, Kentucky, on the 30th day of October, 1919, with Hon. Billie Riffe, regular Judge, presiding.

Upon this day came 150 and more, legal voters and free holders and residents of Lawrence county, Ky., and filed with the Judge of the Lawrence County Court, Billie Riffe, the following petition:

To the Honorable Judge of the Lawrence County Court: We the undersigned legal voters, free holders and residents of Lawrence county, Kentucky, do hereby respectfully request that you order a special election in said county on Saturday, December 20, 1919, for the purpose of voting upon the question whether or not the Board of Lawrence county, Ky., shall issue bonds to the amount of Two Hundred and Fifty Thousand Dollars for the specific purpose of constructing four inter-county neat hard or paved roads, each of said roads to have the same annual mileage of construction, until complete to their destinations, the location and the route of each of said four roads to be as follows:

One road from Louisa up the Point, the most direct and practical route to the Martin county line.

One road up Lick creek and across the Patrick Gap, to the Levisa river road and up the Levisa river road to Georges creek, thence the most direct and practical route to the Johnson county line.

One road from Louisa to the Morgan county line by way of Blaine.

One road from Louisa, the most practical route to the Riffe cross roads on East Fork by way of Miller Branch, thence to the Boyd county line.

Whereupon and pursuant to the filing of the above said petition it is ordered that an election be held in Lawrence county, Kentucky, on Saturday, December 20, 1919, upon the question: "Are you in favor of issuing \$250,000 in Bonds for the purpose of building roads and bridges?" It is therefore ordered by the court that Wm. Taylor, Sheriff of Lawrence county, advertise said election and the object therefor for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county and also by printed hand bills posted up at not less than four public places in each voting precinct in the county and at the Court House door.

VOID PENALTY OF TAXATION ON INVENTORIES

Washington.—A special drive to locate merchants and manufacturers who have followed erroneous methods in making inventories for taxable years 1917 and 1918, such methods tending to reduce tax liability is to be made by bureau of internal revenue.

In cases of voluntary disclosures before investigation of failure to make proper return, the policy will be to forego penalties except where there is intentional evasion. Where discovery is made by government officers, heavy penalties will apply.

In some cases, inventories have been found to have been taken on basis of average costs, though it was possible to identify articles remaining on hand at inventory period, and so determine their exact cost. In others, because of conservative accounting methods flat percentages have been deducted after determining inventory values. Others used a fixed average, based upon costs of prior years or fail to include all merchandise to which they have title in their inventory.

All these methods, which have effect of reducing tax liability, are contrary

to regulations of the bureau and are illustrative. It was said, of numerous irregularities found.

A warning by the bureau advises taxpayers who have followed such methods to file correct returns without notice and without investigation. Some taxpayers have voluntarily notified the bureau of employment of incorrect methods and are filing amended returns. It is only fair to these taxpayers, the bureau states, that their competitors who have made similar errors should be located.

BANK EXAMINER ILL.
Mr. John B. Chennault, National Bank examiner, was stricken with sudden illness at Ashland Saturday. A slight stroke of paralysis is said to have been the trouble.

TWO ORPHANS, ILL IN ASHLAND HOSPITAL

Ashland, Ky.—Two orphan children, a boy and a girl, whose names are unknown, are at the Kings' Daughters' Hospital ill of pneumonia, brought here by the care of Elias Ashby, Sheriff of Casey county, who was returning them to their home county, Pike or Floyd, when they fell under the notice of an Ashland minister, a fellow-traveler, who had them taken to the hospital.

Their story has a dramatic, pathetic beginning in the wilds of Casey county, fourteen miles from Liberty, the county seat.

There is a mineral spring there, where some years ago a summer hotel, a building of twenty-one rooms, flourished, which afterward was sold, presumably for a charitable purpose, and was used as a home for orphan children, taken to this place from Pike and Floyd counties by a man in charge of the institution.

One night this week the home was destroyed by fire, and the inmates, thirteen children, were deserted by the women in charge and huddled together in an old building, cold and miserably clad, in make-shift garments, their clothing lost in the fire.

They were looked after only by men, who felt it their duty to give them all the protection possible, the head of the institution being away when the fire occurred.

The County Judge of Casey county ordered their return to their native county, having no way of providing for them, and they were on the return trip to Pike and Floyd under the care of Sheriff Ashby when the Rev. Reeves of this city, saw them in the station in Lexington where they were waiting to change trains to come to Ashland.

The Rev. Mr. Reeves noticed several of the children were ill, and upon inquiry was told their pitiful story.

On the way to Ashland three of the children had convulsions on the train, and although there was a physician on the train, he was without medicine.

A Cure for Lawlessness and Unrest.

Baltimore, Md.—The Manufacturers' Record, in a recent editorial, said that the world's deepest need is more religion. This great trade journal saw no relief from the evils which threaten America, and the whole world fabric of civilization, except in obedience to the laws of human association taught by an outcast carpenter two thousand years ago.

Now Roger Babson, one of our great authorities on finance, adds his word—not in a religious meeting, but in his regular bulletin to American merchants.

"The need of the hour," he says, "is not more legislation. The need of the hour is more religion. We all need a new outlook on life, a new political policy and a new social policy. The old politics founded on fear and striving only for protection has fulfilled its usefulness. We need a new politics founded on faith and striving for production. Schools develop intellect, theaters and novels foster passion, but the church is the sole organization which develops those good motives of love, sympathy, hope and inspiration on which the industrial salvation of the world depends."

A Word About the Fresh Meat Business

We feel justified in asking for the patronage of the people of Louisa and vicinity in the Meat line because we conduct the business all the year around. It has been the practice here for many years for one or more persons to engage in the fresh meat business during the more profitable season and drop out when warm weather comes with reduced demand for meat and with the heavy expense for ice, etc.

When the price of cattle dropped recently we reduced the price of meat accordingly. It is our intention to treat the public right at all times and to give the best service possible.

We also carry a good line of Groceries and will appreciate your patronage.

More enrollments are expected when many of the men who are now on furlough return to duty. Several additions to the classes for candidates who wish to enter West Point are expected when the men more fully understand their privilege of entering upon this course. All enlisted men between the ages of 19 and 22 who have served one year in the army are eligible.

The vocational training in machine and power departments will be emphasized, but no subject, vocational or cultural, will be overlooked.

SEEK TO DEPORT 37 FROM WEST VIRGINIA

Fairmont, W. Va.—Thirty-seven alleged radical agitators, arrested in this region during the past three days by agents of the Department of Justice and county officers, are in the Marion and Monongalia county jails awaiting deportation proceedings, which, according to Federal authorities will be started in the immediate future. Twelve of the prisoners were taken in raids late Sunday at Downs and Farmington.

RASCALS

Biliousness, Headache, Colds,
Constipation, driven out
with "Cascarets"

Why take nasty cathartics, sickening salts, or stomach-turning oils to drive these rascals out? Let gentle, harmless Cascarets remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your skin sallow, your breath offensive, and your stomach sour. Get a box of Cascarets at the drug store and rid your liver, stomach, and bowels of the excess bile, poisons, and wastes which are keeping you miserable. Cascarets never grips, never sickens, never inconveniences. They cost a little and work while you sleep.

What you pay out your good money for is cigarette satisfaction—and, my, how you do get it in every puff of Camels!

EXPERTLY blended choice Turkish and choice Domestic tobaccos in Camel cigarettes eliminate bite and free them from any unpleasant cigarette aftertaste or unpleasant cigarette odor.

Camels win instant and permanent success with smokers because the blend brings out to the limit the refreshing flavor and delightful mel-

low-mildness of the tobaccos yet retaining the desirable "body." Camels are simply a revelation! You may smoke them without tiring your taste!

For your own satisfaction you must compare Camels with any cigarette in the world at any-price. Then, you'll best realize their superior quality and the rare enjoyment they provide.

HOME CIRCLE COLUMN

A WOMAN'S HEART.

A woman's heart is a savings bank. Where the love you deposit lies. Gathering interest day by day. From the sunshine of the skies. There isn't a safer place, my lad, To bury the treasure you'd keep. Than down in its beautiful vaults of dream.

Where the tenderest blossoms sleep. A woman's heart is the place to hide Whatever you'd treasure best; For she'll give it back as the years go by.

In a love that's more than rest.

A woman's heart is a storage vault. Where nothing breaks in to steal. Except the honor, you fall to pay. And the love you forget to feed.

A love you have placed there once remains.

And you may forget, but she will give it back if you want it so. And smile as she hands the key. Smile, but never forget, my lad, That a smile is the saddest thing. When it's over the ashes of something dead.

And the heart is a broken wing!

A woman's heart is a fortress strong. Where your foes may never come. With prancing steeds and glowing sword.

And the rat-tat of the drum. For that which you treasure she will defend.

And loud as the guns may roll, She'll stand in the breach to the very end.

And then she'll fight with her soul. A woman's heart—I would rather trust. My all unto that, I know, For love in the keeping of such a place Will grow as the blossoms grow. —Selected.

God's bookkeeper makes no errors and up there credit is given where credit is due.

A neat appearance about the house is a woman's chief attraction, if she but knew it. So many of them, after a few months of marriage, become so careless of their personal appearance. And there is nothing more ruinous to a man's love for his wife, or to his disposition, than to come home after a hard day's work and find her just as carelessly attired as he left her in the morning, only a little more so, due to her work during the day. There is no reason why a woman need ever be anything but neat. In these days when she has very little dirty work to do, and if she will be careful there is no reason why she should spill something of each

dish she cooks, on her dress. There is no reason why she cannot have a clean face and her hair well combed. It takes just as long to twist the hair up carelessly, as to twist it up neatly. It is all a matter of habit, and if she would but form the habit of dressing neatly in the morning she would always present a neat appearance, even if she kept the same dress on all day. Wives owe this to their husbands. To be sure, the husbands owe the wives a good many things, too, but they will be more apt to play the game squarely, if they see that their wives are doing likewise.

Young people, each and every one of you hold in your own being the key of success or failure. And if you desire your life to be regarded as a success, before God and man, make it so. Do not give up the ideals of your youth. You may have to fight for them against great odds—the world may laugh you to scorn—but FIGHT and you will win and gain strength with this battle. "His that wrestles with us, strengthens our nerves and sharpens our skill. Our antagonist is our helper!"

How many times we see about us men and women who are failures at thirty-five—who are willing to give up the struggle and own themselves beaten—and just at the time when they are best equipped by nature and experience to win great things. Their failure, you will find, is always due to one of two things: either they have forgotten their dreams and their minds wander about in a sea of half-tried enterprises, or, remembering their dreams, they do not care enough to put their mind and heart into their work and STICK. The best word in the vocabulary of any young person is that word "stick." If you stick to your ideals, you will win—give them up and lie down on the job and you will lose your chance of success and your self-respect, which is man's greatest asset, next to his love of God.

Trouble, in a way, is a blessing in disguise, for it develops us morally, mentally and physically. There are a few people in the world who have never had any trouble. They are all good people, but mighty uninteresting, unsympathetic and without real friends. And you never can tell where they are going to stand when trouble comes. It's the people who have fits so great.

OUT O' ORDER STOMACHS

Indigestion, Acidity, Sourness
and Gases ended with
"Pape's Diapepsin"

The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful!

Millions of people know that it is needless to be bothered with indigestion dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay dyspeptic! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benediction is so great.

SHELL-SHOCK VICTIM, IN HIDING TWO MONTHS, FOUND, MERE SHADOW

Norfolk, Va.—Investigation of a story told by children that they had heard groans under a bungalow building at Hampton Roads naval base, disclosed Harry J. Harley, Philadelphia, third class naval fireman missing for two months, and on the verge of starvation.

When the man was dragged out and hurried to a hospital he was barely alive, but physicians said he might recover. He weighed sixty-one pounds, which was 100 pounds off his record when he enlisted last May.

Harley, who had served in the army in France, was suffering from shell shock and, apprehensive of punishment when he overstayed his leave, took refuge, officials said, under the building.

Harley was officially rated as a deserter on October 22.

Vermion Adds to Cost of Producing Pork

Washington, D. C.—Lice add a cent a pound to the cost of producing pork. This has been found in tests just completed at the experiment farm of the United States department of agriculture at Beltsville, Md. Twenty-four lousy hogs were secured and divided into two lots as nearly equal as to quality of animals as possible.

The two lots were managed and fed the same way with the exception that one lot was treated to prevent lice. The animals were weighed at regular intervals and at the end of the fattening period it was found that the hogs infested with lice cost a cent a pound more to fatten than those which were free of the troublesome pest.

The officials of the department who had charge of this experiment give an interesting side light in connection with securing the lousy animals. They communicated with some of the department's field men, asking them to locate lousy hogs. It was some time before a reply was received to this surprising order. After the lousy hogs were purchased the owner learned why, and he immediately built a dipping vat and began to treat the animals to prevent lice.

NEW EYELIDS MADE FROM LEG

Operation Restores Sight of Maine Man Injured Forty-Seven Years Ago.

Bangor, Me.—Forty-seven years without closing his eyes, then a period of total blindness, followed by complete restoration of sight, this is the experience of John Randolph Watson of the town of Standish.

Mr. Watson was a photographer in Indianapolis, and in 1856 an explosion of chemicals burned away his eyelids, although the sight was not affected. But with unprotected eyes he continued for nearly half a century, three years of the period being spent in Alaska, where the severity of the climate caused cataracts to form on both eyes and resulted in loss of sight.

He went to Philadelphia later, where he formerly lived for a time, and was at the Muhlenberg hospital, and by grafting flesh from his leg he got a new set of eyelids. The success of the operation is now assured. The cataracts were removed and the sight has been restored.

OPPOSE GERMAN FLAG PLAN

Belgians Contend They Have Prior Right to Color Scheme of Black, Yellow and Red.

Brussels, Belgium.—Belgian patriotic societies are being formed to take action to prevent the German republic from adopting the Belgian national colors—black, yellow and red—for its flag. Intense indignation is manifested and this is a bit heightened by the plan that the colors in the new German emblem will be disposed horizontally instead of vertically.

An argument against the use of the colors by the Germans is that the Belgians have actually employed the black, yellow and red horizontally in their emblems—notably in their mercantile flags—so they consider they still have a priority on that position of the colors as well as the vertical use.

The Belgians scorn the plea of the Germans that they have the right to use the colors because of their use by the ancient Germanic empire of which Austria was the center.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

In Siberia.

Possibly the most important Red Cross work in Siberia, and one which most demands the continuance of operations there, is the campaign against typhus. Over a stretch of 4,000 miles the American Red Cross has fought the scourge. Here is seen "The Great White Train," an anti-typhus institution which, with its crew of doctors and nurses and cargoes of drugs, food and cleansing apparatus, has saved the lives of thousands.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

In Belgium.

Hunger, disease and exposure were not all that Belgian children were subjected to, for enemy shells constantly dropped into what little of their country the invaders did not hold. In this picture Red Cross nurses are seen taking some of the fifty babies from the American Red Cross nursery at La Punge into a bomb-proof structure as the Germans opened fire from the sea.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

In Italy.

Arriving at one of the most critical stages of the war, when the Teutons were forcing the Italian army back to the Piave, the American Red Cross rushed emergency relief from Paris and revived the drooping spirits of the whole country. In addition to furnishing rations and comforts and medical attention to the fighting men, the American Red Cross instituted 42 soup kitchens, 33 children's hospitals, 10 children's dispensaries, 14 artificial limb factories, five homes for refugee children, 10 rest stations for refugees.

This photograph shows a group of Italian refugee children being fed by the American Red Cross at one of the numerous relief stations.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Recreation in Hospitals.

The American Red Cross conducts its recreational work in hospitals through trained men and women, introducing a multitude of recreations suited to the handicaps of the men. The accompanying view of a hospital ward shows in operation a moving picture projecting machine, developed by a Red Cross recreational director, which throws the pictures on the wall so that the men do not have to stir from their cots.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

On German Soil.

In the City Square of Troves, Germany, headquarters of the allied military forces, an ancient cross surmounted monument marks the city's center of traffic. For this reason American Red Cross officials converted it, as shown by this picture, into a directory of all Red Cross activities in the city.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

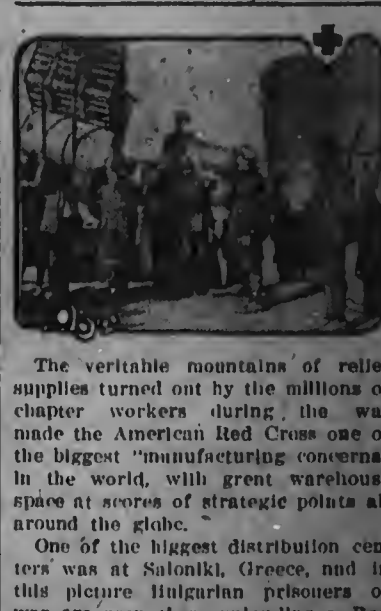

In Serbia.

As far back as the first winter of the war, the Red Cross sent to Serbia a sanitary commission that effectively checked the scourge of typhus, but after the United States entered the conflict, the Red Cross was able, in August, 1917, to send a full commission that carried on extensive relief operations among the suffering refugees of the tortured nation. Hospitals were established, the refugees fed, clothed and given medical attention, the army supplied with much needed dental treatment, farm machinery, and seeds provided to help the Serbs redeem their land to productivity, and, not least, measures undertaken for the benefit of the children. The terrible condition into which these helpless victims of the war had fallen is well portrayed by this photograph of a little Serbian girl wearing the rags and expression of hopeless dismay that were all she possessed when the Red Cross came.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

At Saloniki.

The veritable mountains of relief supplies turned out by the millions of chapter workers during the war made the American Red Cross one of the biggest "manufacturing concerns" in the world, with great warehouse space at scores of strategic points all around the globe.

One of the highest distribution centers was at Saloniki, Greece, and in this picture Bulgarian prisoners of war are seen there unloading a Red Cross cargo of 2,300 boxes from a French transport. At the right is seen one of the American Red Cross camions, fleets of which were used in rushing relief to points where the suffering was greatest.
